Garlieston Lodge

Rusty & Christine would like to welcome you to Garlieston Lodge . The Lodge was originally built in the 1800's as a Gate Lodge for Galloway House, the seat of the Earl of Galloway and sits in its own five acres of woodland with a small river running through it feeding our small fishing lake.

In the woods we have a breeding herd of Britain's only all-black pigs known as Large Blacks, they are a rare breed and are on the survival trust breeds at risk list. On the rest of the small holding we have free range hens, geese and ducks. Wild deer can often be seen in the morning drinking from the lake. In 2009 & 2010 the site was awarded the Camping and Caravanning Club best Certificate for the whole of the UK and Practical Motorhome Top Five-Van Site.

Garlieston and the surrounding area is steeped in history and the harbour is the birth place of the famous floating Mulberry Harbours.

Garlieston Lodge is the ideal place to spend a holiday or weekend break.

The perfect place to relax

Fly Fishing @ Garlieston Lodge

All Year Round

Our $\frac{3}{4}$ acre lake was originally stocked in 2006 with organic rainbows and browns over 2 lb and has several 4 lb to 7 lb fish. Brook trout also populate the lake. We do not feed the fish they all feed naturally and provide good sport taking natural patterns
